EDUCATION

2015 – 2019
Kerala, India

B.tech computer science with CGPA of 7.01
K R Gouri Amma college of engineering

TECHNICAL SKILLS

- Languages: JavaScript, TypeScript
- Frameworks & Libraries: React Native, Expo, React.js, Next.js, Node.js, NestJS, Express.js
- Backend & Databases: REST APIs, PostgreSQL, Firebase, MongoDB
- Tools & Platforms: Android Studio, Xcode, Git, npm, yarn

WORK EXPERIENCE

02/2025 – 09/2025
DUBAI, UAE

Full Stack Developer
REIDIS INTERACTIVE

Collaborated with an experienced software engineering team, gaining expertise in backend development and research analysis. Built skills in team leadership, requirement analysis, estimation, design, implementation, and testing. Contributed to scalable backend solutions and technical research to support efficient decision-making.

09/2023 – 01/2025
KERALA, INDIA

React Native Developer
REUBRO INTERNATIONAL

Works as an individual software Engineer, Creating wireframes, developing, testing and reviewing source code.

05/2021 – 07/2023
KERALA, INDIA

React Native Developer
IROID TECHNOLOGIES

Works with well-experienced software engineering team. And obtained the qualities such as team leadership, analysis, estimation, module design, Implementation and testing.

PROJECTS

V-Development

- Designed and developed a full-stack web application using Next.js for the frontend and Express.js for the backend.
- Implemented responsiveness and made the website dynamic to suit various devices and content needs.

Nexture

- Built and deployed a full-stack web platform using Next.js for the frontend and Express.js for the backend.
- Ensured mobile responsiveness and dynamic rendering to support diverse user interactions and content updates.

Learne

- Developed a cross-platform quiz app for Android and iOS using Expo and React Native with TypeScript.
- Built a scalable backend using NestJS and PostgreSQL, with secure and modular RESTful APIs.
- Implemented Google Sign-In, multi-language support, payment gateway integration, and Firebase push notifications.

Sky Builders

- Developed a cross-platform Android and iOS application for Construction industry.
- Integrated Firebase push notifications and Redux for state management.

Sandwych

- Developed a cross-platform healthcare app using React Native and Javascript, targeting both Android and iOS platforms.
- Integrated Face ID login, voice-to-text input, and Firebase push notifications for secure, accessible user experience.
- Connected with Epic FDB and other third-party healthcare APIs to fetch and display real-time medical data.

Svadhan

- Developed separate Android applications for customers and agents, streamlining micro-finance operations such as onboarding, loan tracking, and collections.
- Integrated Firebase Cloud Messaging (FCM) for real-time push notifications, Crashlytics for app stability monitoring, and multi-language support to improve accessibility across regions.
- Enabled secure digital loan repayments by integrating the PhonePe payment gateway.

EasyStore

- Built a cross-platform electronics shopping app for Android and iOS using React Native with Redux and React Hooks.
- Implemented Firebase push notifications to keep users updated.
- Integrated Razorpay for secure in-app payments.

Labham

- Developed an Android and iOS shopping app with a customized UI tailored to client requirements.
- Integrated Facebook Sign-In and Google Sign-In for seamless user authentication.
- Implemented Paytm payment gateway for secure and smooth in-app transactions.

KBL

- Developed KBL, a cross-platform Android and iOS app for shopping food and groceries.
- Utilized Redux for efficient state management.
- Implemented Firebase push notifications to keep users updated with offers and order status.

Taj

- Developed a cross-platform Android and iOS application for real estate.
- Integrated Firebase push notifications, multi-language support, and Redux for state management.

CERTIFICATIONS

Certified in MERN Stack Development

- Completed comprehensive training on the MERN stack: MongoDB, Express.js, React.js, and Node.js.
- Developed mobile applications using React Native.

Certification in Python and Django Development

- Developed a fully functional E-commerce website using Python and the Django framework.
- Designed and managed relational databases with SQL to support backend operations.
